Food Biochemistry and Food Processing

Food Biochemistry and Food Processing

The biochemistry of food is the foundation on which the research and development advances in food biotechnology are built.

In *Food Biochemistry and Food Processing, Second Edition*, the editors have brought together more than fifty acclaimed academicians and industry professionals from around the world to create this fully revised and updated edition. This book is an indispensable reference and text on food biochemistry and the ever increasing developments in the biotechnology of food processing.

Beginning with sections on the essential principles of food biochemistry, enzymology, and food processing, the book then takes the reader on commodity-by-commodity discussions of biochemistry of raw materials and product processing. Chapters in this second edition have been revised to include safety considerations and the chemical changes induced by processing in the biomolecules of the selected foodstuffs. This edition also includes a new section on health and functional foods, as well as ten new chapters including those on thermally and minimally processed foods, separation technology in food processing, and food allergens.

Food Biochemistry and Food Processing, second edition fully develops and explains the biochemical aspects of food processing, and brings together timely and relevant topics in food science and technology in one package. This book is an invaluable reference tool for professional food scientists, researchers and technologists in the food industry, as well as faculty and students in food science, food technology and food engineering programs.

The Editor

Dr. Benjamin K. Simpson, Department of Food Science and Agricultural Chemistry, McGill University, Quebec, Canada

Associate Editors

- Professor Leo Nollet, Department of Applied Engineering Sciences, Hogeschool Ghent, Belgium
- Professor Fidel Toldrá, Instituto de Agroquímica y Tecnología de Alimentos (CSIC), Valencia, Spain
- Professor Soottawat Benjakul, Department of Food Technology, Prince of Songkla University, Songkhla, Thailand
- Professor Gopinadhan Paliyath, Department of Plant Agriculture, University of Guelph, Ontario, Canada
- Dr. Y. H. Hui, Consultant to the Food Industry, West Sacramento, California, USA
