The Oxford Handbook of the Early Modern Sermon (Oxford Handbooks) Peter McCullough, Hugh Adlington, Emma Rhatigan

Scholarly interest in the early modern sermon has flourished in recent years, driven by belated recognition of the crucial importance of preaching to religious, cultural, and political life in early modern Britain. *The Oxford Handbook of the Early Modern Sermon* is the first book to survey this rich new field for both students and specialists. It is divided into sections devoted to sermon composition, delivery, and reception; sermons in Scotland, Ireland, and Wales; English Sermons, 1500-1660; and English Sermons, 1660-1720. The twenty-five original essays it contains represent emerging areas of interest, including research on sermons in performance, pulpit censorship, preaching and ecclesiology, women and sermons, the social, economic, and literary history of sermons in manuscript and print, and non-elite preaching. The *Handbook* also responds to the recently recognised need to extend thinking about the 'early modern' across the watershed of the civil wars and interregnum, on both sides of which sermons and preaching remained a potent instrument of religious politics and a literary form of central importance to British culture. Complete with appendices of original documents of sermon theory, reception, and regulation, and generously illustrated, this is a comprehensive guide to the rhetorical, ecclesiastical, and historical precepts essential to the study of the early modern sermon in Britain.
