Connect inquiry to improved teaching and learning across your district!

Now that federal and state initiatives require school districts to provide job-embedded professional development, the next step is making it happen. This book helps districts define, develop, and implement a systematic inquiry-based process with a laser-like focus on both adult and student learning. This book's inquiry model challenges educators and students to:

- Define questions they are passionate about exploring
- Collect and analyze data to inform their questions
- Share what they have learned through the process with others
- Collaborate to build on their results and improve student achievement
