JULES VERNE

JOURNEY TO THE CENTER OF THE EARTH (illustrated 150th Anniversary Edition) JULES VERNE

The Definitive Edition of JOURNEY TO THE CENTER OF THE EARTH

- Illustrated with stunning period illustrations
- Complete, unabridged, and formatted for kindle to improve your reading experience
- Linked table of contents to reach your chapter quickly

“Great book--a fun tale of Professor Liedebrook's determined attempt to reach the center of the earth, as narrated by his nephew in often-amusing language. Plenty of traces of geology, anthropology, and archaeology, but without getting bogged down. It was a surprisingly easy and fun read, and descriptive too. Good adventure story!” Qt

“Journey to the Center of the Earth is a rousing good adventure, however, and an excellent example of early science fiction. Jules Verne was an amazing pioneer with an appealing style that is still effective one hundred and fifty years later.” Bookworm Blather

“A great story filled with adventure and a lot of science - some made up, but much of it rooted in the truth.” Eclectic Indulgence

“His descriptions evoke the loneliness and eerie silence of the caves they travel through, the desperation they experience with losing equipment or food, the constant worry of how to get back out, and the underground sea with its wondrous creatures never cease to amaze. It is truly an extraordinary voyage . . . An absolute classic. I am now a fan. 9.5/10” Slow Reader

JOURNEY TO THE CENTER OF THE EARTH is one of the most exciting and fascinating science fiction adventures of all time. Presented in a beautiful edition to mark the 150th anniversary of this classic, specially designed for kindle, this is Verne's masterpiece which will stay with you forever.
