Eichner's classic *A Guide to Post-Keynesian Economics* (1978) is still seen as the definitive staging post for those wishing to familiarise themselves with the Post-Keynesian School. This book brings the story up-to-date.

Of all the subgroups within heterodox economics, Post-Keynesianism has provided the most convincing alternative to mainstream theory. The main representatives of the Post-Keynesianism from both sides of the Atlantic are represented here, including Paul Davidson, Geoff Harcourt and Sheila Dow.
