Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) Keith Devlin

Keith Devlin. You know him. You've read his columns in MAA Online, you've heard him on the radio, and you've seen his popular mathematics books. In between all those activities and his own research, he's been hard at work revising Sets, Functions and Logic, his standard-setting text that has smoothed the road to pure mathematics for legions of undergraduate students.

Now in its third edition, Devlin has fully reworked the book to reflect a new generation. The narrative is more lively and less textbook-like. Remarks and asides link the topics presented to the real world of students' experience. The chapter on complex numbers and the discussion of formal symbolic logic are gone in favor of more exercises, and a new introductory chapter on the nature of mathematics--one that motivates readers and sets the stage for the challenges that lie ahead.

Students crossing the bridge from calculus to higher mathematics need and deserve all the help they can get. Sets, Functions, and Logic, Third Edition is an affordable little book that all of your transition-course students not only can afford, but will actually read...and enjoy...and learn from.

About the Author

Dr. Keith Devlin is Executive Director of Stanford University's Center for the Study of Language and Information and a Consulting Professor of Mathematics at Stanford. He has written 23 books, one interactive book on CD-ROM, and over 70 published research articles. He is a Fellow of the American Association for the Advancement of Science, a World Economic Forum Fellow, and a former member of the Mathematical Sciences Education Board of the National Academy of Sciences,.

Dr. Devlin is also one of the world's leading popularizers of mathematics. Known as "The Math Guy" on NPR's Weekend Edition, he is a frequent contributor to other local and national radio and TV shows in the US and Britain, writes a monthly column for the Web journal MAA Online, and regularly writes on mathematics and computers for the British newspaper The Guardian.

From reader reviews:

Cindy Searcy:

As people who live in typically the modest era should be change about what going on or facts even knowledge to make these keep up with the era which is always change and progress. Some of you maybe will certainly update themselves by examining books. It is a good choice in your case but the problems coming to anyone is you don't know what one you should start with. This Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

Evelyn Rodrigue:

Now a day those who Living in the era everywhere everything reachable by connect to the internet and the resources in it can be true or not demand people to be aware of each information they get. How a lot more to be smart in acquiring any information nowadays? Of course the correct answer is reading a book. Reading a book can help men and women out of this uncertainty Information specially this Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series) book because book offers you rich facts and knowledge. Of course the data in this book hundred per-cent guarantees there is no doubt in it you probably know this.

Catherine Branch:

People live in this new morning of lifestyle always aim to and must have the spare time or they will get wide range of stress from both lifestyle and work. So , once we ask do people have free time, we will say absolutely of course. People is human not really a huge robot. Then we consult again, what kind of activity are there when the spare time coming to anyone of course your answer will certainly unlimited right. Then ever try this one, reading guides. It can be your alternative in spending your spare time, the book you have read is definitely Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series).

Donna Wright:

Playing with family in the park, coming to see the coastal world or hanging out with buddies is thing that usually you have done when you have spare time, and then why you don't try thing that really opposite from that. A single activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Sets, Functions, and Logic: An Introduction to Abstract Mathematics, Third Edition (Chapman Hall/CRC Mathematics Series), you may enjoy both. It is good combination right, you still desire to miss it? What kind of hangout type is it? Oh seriously its mind hangout people. What? Still don't get it, oh come on its called reading friends.
