Bible (KJV with Apocrypha) (best navigation with Direct Verse Jump) God inspired

Unlike most current publications of the King James Bible, this OSNOVA Bible edition includes all the text that the Translators included in the first KJV edition such as the Dedication to King James I, Translators' Preface, Translators' notes and Apocrypha (books of the Greek Septuagint that the Protestants do not consider to be part of the Canon). This edition also includes the preface by John Witherspoon to the 1791 Isaac Collins' Bible published in America.

Features of this version of the KJV Bible that has the same text as your paper copy:

- Direct Verse Jump and Direct Verse Jump 2, two revolutionary new methods to open the exact verse you need in mere seconds (see below)
- two other ways to navigate between books and chapters: (i) using a hyperlinked table of contents; and (ii) pressing the joystick right or left to move between books and chapters of the Bible. Once you learn all four navigation methods, you will be able to open any verse in your Kindle Bible as fast as (or even faster than) in your paper copy
- The text of this electronic edition is painstakingly verified to be true to the KJV paper editions (no typos, no OCR errors)
- correctly formatted (i.e., true formatting of the original KJV - italics, small caps in LORD, etc.)
- original text, notes, book titles carefully preserved (for example, see the notes at the end of the Paul's epistles, which are found in the original KJV, look at Ps. 119)
- easy to determine where you are in the Bible
- Jesus' words are in bold
- the text is broken into paragraphs for cohesion of the text
- as any Kindle book, the KJV Bible is searchable; however, when you first install the file please wait for the Kindle to index the whole Bible (most of the time about 10 minutes; however, sometimes up to 8-10 hours). The file is large and it takes a long time to index. For this reason, the DVJ navigation method will be available only after the book has been indexed

Direct Verse Jump: new navigation method using the search functionality:

In this version, all you need to do is type an abbreviated book name (see the table of contents for the complete list), then period, then chapter number, period again, and then verse number and finally press "enter" twice (you need not wait for the Kindle to display the search results) and you will be looking at that particular verse in seconds. If you just need to open the first verse of any chapter then the verse number is not necessary. Do not forget periods and use only the abbreviations that are listed in the table of contents.

For example, if you wish to select chapter 3 of Genesis, you would:

1. type the standard abbreviation for Genesis (see the table of contents for a complete list), then period, and finally number "3" in other words: ge.3
2. press "enter" twice and you are there.

For John 3:16, you type "jn.3.16" and press twice on "enter".

Note that you should put the chapter number even for books that have only one chapter. For example, the Epistle from Jude verse 5 would translate to "jud.1.5" and a double click.

Direct Verse Jump 2: alternative way to jump to any verse:

While reading your OSNOVA Bible, press "Menu", then select "Index" and type the same DVJ abbreviation as described above for the passage you want with the only difference that instead of periods use spaces (for example "jn 3 16").

NOTE: Many features of this publication will not work on Kindle 1, software Kindles such as Kindles for PC, iPad, iPhone, Blackberry or Android. This edition is not TTS(text-to-speech)-friendly due to the way TTS works on the Kindle.
