The Smartphone: Anatomy of an Industry Elizabeth Woyke

We think we know everything about our smartphones. We use them constantly. We depend on them for every conceivable purpose. We are familiar with every inch of their compact frames. But there is more to the smartphone than meets the eye.

How have smartphones shaped the way we socialize and interact? Who tracks our actions, our preferences, our movements as recorded by our smartphones? These are just some of the questions that journalist Elizabeth Woyke answers in this muckraking exposé of the \$241 billion industry that produces more than 700 million devices each year.

In the tradition of *The Coffee Book*, *The Sneaker Book*, *Oil*, and *Cigarettes*, *The Smartphone* offers not only a step-by-step guide to how smartphones are designed and manufactured but also a bold exploration of the darker side of this massive industry, including the exploitation of labor, the disposal of electronic waste, and the underground networks that hack and smuggle smartphones.

Featuring interviews with key figures in the development of the smartphone and expert assessments of the industry's main players—Apple, Google, Microsoft, and Samsung—*The Smartphone* is the perfect introduction to this most personal of gadgets. Your smartphone will never look the same again.

From reader reviews:

Michelle Johnson:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite guide and reading a publication. Beside you can solve your trouble; you can add your knowledge by the reserve entitled The Smartphone: Anatomy of an Industry. Try to the actual book The Smartphone: Anatomy of an Industry as your buddy. It means that it can to get your friend when you truly feel alone and beside regarding course make you smarter than before. Yeah, it is very fortunated for yourself. The book makes you a lot more confidence because you can know every thing by the book. So , let me make new experience and knowledge with this book.

Dane People:

Reading a book tends to be new life style in this particular era globalization. With studying you can get a lot of information that will give you benefit in your life. Having book everyone in this world may share their idea. Books can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or even their experience. Not only the storyplot that share in the books. But also they write about the data about something that you need example of this. How to get the good score toefl, or how to teach your children, there are many kinds of book that exist now. The authors nowadays always try to improve their skill in writing, they also doing some study before they write with their book. One of them is this The Smartphone: Anatomy of an Industry.

Edward Trotta:

People live in this new day time of lifestyle always make an effort to and must have the spare time or they will get lots of stress from both way of life and work. So , once we ask do people have free time, we will say absolutely sure. People is human not really a huge robot. Then we consult again, what kind of activity do you have when the spare time coming to an individual of course your answer will unlimited right. Then do you try this one, reading guides. It can be your alternative within spending your spare time, typically the book you have read is definitely The Smartphone: Anatomy of an Industry.

Dennis Bales:

As a scholar exactly feel bored to reading. If their teacher asked them to go to the library or to make summary for some publication, they are complained. Just very little students that has reading's spirit or real their passion. They just do what the professor want, like asked to the library. They go to there but nothing reading significantly. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this The Smartphone: Anatomy of an Industry can make you truly feel more interested to read.
