Dark Futures (Terminator 2: The New John Connor Chronicles) Russell Blackford

Following the events of Terminator 2: Judgment Day, Sarah Connor and her son, John, had thought they'd been able to alter the timeline so that neither the artificially intelligent satellite SkyNet nor its Terminator killing machines would ever be created. But if they were so successful, why, then, are they now being hunted by yet another Terminator that's traveled back in time to ensure that John never grows up to be the charismatic leader of the few humans who survived Judgment Day? Told from the perspective of John himself, this first volume of The John Connor Chronicles provides insight to the thoughts and fears of a teenager who already knows what Fate has in store for him-and the burdens he has to bear along the path he must travel to become humanity's future savior.
