Neurologie (French Edition)

Jean Cambier, Maurice Masson, Catherine Masson, Henri Dehen

Neurologie (French Edition) Jean Cambier, Maurice Masson, Catherine Masson, Henri Dehen
Les avancées rapides survenues dans tous les domaines des neurosciences imposaient une **nouvelle édition profondément révisée** de l'Abrégé de Neurologie. Chaque chapitre a été revu. Les remaniements les plus importants portent sur les chapitres relatifs à la pathologie : maladie de Parkinson, SEP, démences, pathologie vasculaire cérébrale, maladie d'Alzheimer, anomalies du développement.

Toutefois, l'esprit dans lequel avait été rédigé cet ouvrage - clair, pratique et complet - a été conservé : la place accordée à la **neurologie clinique** et à la **neuropsychologie** a été maintenue, de même que le souci d'intégrer la **sémiologie** dans l'organisation structurale et physiologique du système nerveux. Les **stratégies diagnostiques** ont été reconsidérées à la lumière des progrès de l'**imagerie**, de l'**électrophysiologie** et de la **neurogénétique**. La **thérapeutique** a été mise à jour dans l'ensemble des chapitres. **L'abrégé de référence entièrement mis à jour**

- Les troubles neurologiques selon une **analyse sémiologique** reposant sur l'anatomo-physiologie et intégrant les progrès de la neuropsychologie et de la neurogénétique
- Les affections neurologiques les plus fréquentes et les **thérapeutiques les plus récentes**
- Le diagnostic neurologique à la lumière des progrès de l'**imagerie médicale** et des **explorations électrophysiologiques de la neurogénétique**.
