Athenian Religion: A History

Robert Parker

Athenian Religion: A History Robert Parker

Inadequately documented, ancient Greek religion can all too easily be reduced to the dry analysis of archaeological remains and so-called 'ritual objects'. This authoritative new work attempts to bridge the gap that usually divides Greek religion from Greek history, setting it firmly in the thick of contemporary events and politics. How did people actually worship the gods? Was Socrates's trial a crisis for religion or the state, or both? These are among the key issues addressed in what promises to be the definitive work on the subject for many years to come.
