Steven Montana, computer whiz and hacker extraordinaire, was attending college in Ohio when his world fell apart. A swarm of huge meteors fell all over the world, on Europe, on the United States, and in particular on Steven¿s home town in California. In an instant, his family and all his friends were gone. Eventually, he learned that the ¿meteor¿ onslaught that had orphaned him had actually been a brief and still secret war between the U.S and its enemies (as told in *Warp Speed*) using a new warp drive technology that was more secret than top secret. Another secret was that U.S. had been sending faster-than-light ships to other star systems. Most secret of all was that unfriendly aliens were observing the Earth, and while U.S. spaceships were not quite in a war with the unknown aliens, they were shooting at the intruders.
