Working with Relationship Triangles: One-Two-Three of Psychotherapy, The Philip J. Guerin Jr. MD, Thomas F. Fogarty, Leo F. Fay Phd, Judith Gilbert Kautto

Virtually all significant relationships are shadowed by a third party-another person, a competing distraction, or even a memory. This groundbreaking book provides clinicians with a hands-on guide to working with many different kinds of relationship triangles in therapy with families, couples, and individuals. The authors show why triangles come into being, how to predict their evolving nature, and how they can be dealt with and resolved in treatment. A wealth of clinical case material and treatment suggestions illustrates how thinking in terms of threes, as well as individuals and dyads, can greatly increase therapeutic flexibility and effectiveness. The paperback edition includes a new series editor's note by Michael P. Nichols.
